

TABLE

OF

The Suns true Place, Right-Ascension,
and Declination, For the present and next
ensuing times.

Made according to many exact observa-
tions of the Sunne, taken in severall Years last past
in the *Sommer Islands*, in the Latitude of
32 deg. 20 min. Finding the Suns
greatest Declination
not to exceed
23 de. 30 m.

By Richard Norwood.

These Tables are referred to the Meridi-
an of *Sommer Islands* (where the Observations
were made) being to the Westwards of the Meridian
of the City of *London* in time 4 hours.

London, Printed for George Harlock, at *Magum Church-corner*,

1656.

The Sunnes true place , Right Ascension and Declination for the

January.

February.
